To: Central Kentucky Angus Association Members & Potential Consignors

The 56th Annual Central Kentucky Angus Association Fall Female Sale will be held on Saturday, November 10, 2018, at the CKAA Sale Pavilion. ***Please note the date (now the second Saturday in November) and consider this as your invitation to consign.*** This is the oldest sale sponsored by CKAA. Originally, the sale was mostly weanling heifers, but, in more recent years and currently, the focus has been on bred heifers and young cows. It is important that our association continue to offer quality animals in sufficient numbers in all of the CKAA sales. As members, we need your help. If each person that receives this letter could be responsible for getting just one entry for this sale (either registered or commercial), we could have a record breaking sale!

In addition to the registered females, Angus based commercial females are also eligible for consignment as are registered bulls. Bulls should be service aged, and remember that any bull over one year of age in a CKAA sale must have a current BSE to sell.

If you desire to enter cattle in the CKAA November Sale, please contact me by no later than the entry deadline of August 25, 2018. This will allow us to finalize your selections and prepare the advertising and catalog in a timely manner. Please retain this letter and entry form until you are ready to make your entries. Be sure that I have your email address, and I will give you a reminder in early August. Give me or Logan a call if you have any questions. I look forward to your participation.

Sincerely,

Tim Dievert
